

# Mastering the Art of Instrument Navigation IMC Club Monthly Meeting

This month I will describe with a Powerpoint presentation my accident occurrence in 1975 in hopes that it will encourage our other members to share and analyze their own personal flying experiences. I will describe how the accident happened and have our group provide an interactive discussion to dissect the events leading up to and after the accident. I might add that no action was taken by the FAA against me after all of the facts were taken into account.

**Directions:** On East side of US Federal Hwy near Carl's Buick Dealership
